Students receive the tools to become chroctic thinkers: ask questions, apply rules and develop models and evaluate the result. In addition, Steven and Susan Zumdahl Crafted Chemwork, an online program included in Owl Online Web Learning to support his approach, as much as an instructor would offer support during the hours of office hours. Chemwork is just one of many study aids disposable with Chemistry that supports the brands of the textbook à € "a strong in models, real world applications, visual learning and problem solving, independent.
